

helioCORE 2.2.56 release notes

Product	helioCORE
Version	2.2.56
Release date	2022-04-14

System Updates and other fixes:

- Fixed issue with time input fields not accepting keyboard entries properly.
- Fixed issue with time input fields not displayed properly for 12h (am/pm) formatting. Now 24h formatting is always used for time input fields.
- Fixed issue with editing day rearranging order of days in strategies.
